MUHAMMAD USMAN

Ai Expert

usmangulzar005@gmail.com | +92 317 010 6423 | Karachi, Pakistan

PROFESSIONAL SUMMARY

Dynamic AI Expert with extensive experience in researching and evaluating cutting-edge AI tools and platforms tailored for digital marketing. Proven track record in architecting AI-powered workflows that significantly enhance productivity and minimize repetitive tasks. Proficient in developing and optimizing prompts for generative AI platforms such as ChatGPT, Claude, and Gemini. Skilled in leveraging AI for content generation, SEO strategies, and competitor analysis, with a strong focus on integrating AI tools into existing marketing workflows to drive operational excellence. Committed to continuous learning and staying abreast of the latest advancements in generative AI and marketing technology to foster organizational growth and innovation.

CORE COMPETENCIES & TECHNICAL SKILLS

- AI Tools & Platforms: ChatGPT, Claude, Gemini, n8n, Make, Zapier
- Marketing Technology: AI-driven SEO strategies, Keyword research, Competitor analysis
- Content Generation & Optimization: Research, Ideation, Quality improvement
- Workflow Automation: AI-based automation workflows, Automation pipelines, Scalable architectures
- Documentation & Monitoring: Documentation of AI workflows, Monitoring AI-generated content for accuracy and originality, Quality assurance of AI-generated content
- Team Development: Training and guiding team members on effective AI tool usage

PROFESSIONAL EXPERIENCE

Artificial Intelligence Engineer | Azm AI Safwa

Contract | Aug 2026 - Present | Saudi Arabia (Remote)

- Engineered and integrated a RAG-powered AI assistant, enabling users to query organizational information through natural-language conversations, enhancing user engagement by 40%.
- Developed AI workflow automations that streamlined data processing, resulting in a 30% reduction in manual tasks and improved operational efficiency.
- Architected an end-to-end knowledge pipeline for document ingestion and LLM-based response generation, increasing response accuracy by 25%.

Freelance Agentic AI Engineer | Independent

2025 - Present

- Designed and deployed autonomous AI agents that execute workflows and automate business processes, saving clients over 1,200 hours of manual work annually.
- Built production RAG systems and multi-agent workflows, enhancing operational capabilities across various sectors including logistics and healthcare.
- Led the development of AI-driven solutions that improved client engagement and operational efficiency, with a focus on integrating AI tools into existing workflows.

SELECTED AGENTIC AI PROJECTS

- Autonomous Real Estate Agent | n8n | OpenAI | Pinecone
- Developed a multi-channel AI agent that manages property inquiries and schedules viewings, improving lead qualification efficiency by 50%.
- AI Dental Clinic Assistant | n8n | WhatsApp API | OpenAI
- Created a WhatsApp-based assistant that automates patient interactions, reducing appointment booking time by 60%.

EDUCATION & CREDENTIALS

Bachelor of Science in Artificial Intelligence | IQRA University, Karachi | 2022 - Present

- Final Year Project: Developed a Physics-Informed Multi-Modal Fusion Autoencoder for CCTV anomaly detection, achieving significant performance metrics.

CERTIFICATIONS

n8n Program Completion - Professional Certificate | n8n | Aug 2026
Google AI Essentials | Google, Coursera | Sep 2025
Foundations: Data, Data, Everywhere | Google, Coursera | Sep 2025
